

Snowe's Start Smart© Business Plan Checklist!

Hello Fabulous!

My name is Snowe & I am empowering women to have it all! More money, more choices & more time with their families!!

Snowe Saxman

I believe that we can change the world by creating more freedom & happiness when we live our lives, God first, family second & businesses third!

I love helping purpose-driven women, who struggle with money, uncover hidden success blocks from your past, heal your relationship with money and learn how to master it through God inspired success, financial and business strategies so that you can have it all; more money, more choices and more time with your family!

My approach is heart-centered & faith filled.
God, Family, Career & everything else.

I have been consulting small businesses for 17+ years. I have found that the biggest things that keep them from realizing the success they really want is the lack of an organized business & money plan! A lot of entrepreneurs avoid putting these systems in place because of their lack of knowledge or fear. Negative energy spent wondering about where your money is, if you are even making a profit or not having a solid business plan, keeps you from moving forward & realizing your full potential in business! Success isn't accidental, it's planned!

My passion is helping women work SMART, not hard so I created this step by step business plan checklist & guide for you! This is EXACTLY how I went from bankruptcy to multiple six figures and why I created this checklist for you!

I was a millionaire at age 25 and bankrupt by age 35. With God's help, I have been able to channel a painful past into a purposeful future. I want to help you be able to learn from my successes AND mistakes, so that you can move towards creating a six figure business the easy way by working SMARTER, not harder!

Much Love & Belief,

Snowe Saxman
